Folding arm awnings for luxury cruiser

East Coast Shade Design installed a folding arm awning onto a \$3.5 million Princess cruiser.

The low-profile cassetted awning blended with the rest of the Princess V65's design. Components including resilient acrylic fabric, stainless steel fitting and powder-coated aluminum were used in the awning design.

For more information, contact East Coast Shade Design at www.eastcoastshadedesign.com.au or info@eastcoastshadedesign.com.au.

Vinyl cleaner and protectant

CMI introduced NBT Marine Prep Kit, a vinyl product cleaner and protectant. CMI will equip all its NBT Marine products with the new prep kit. Instructions are included with a two-ounce bottle of V-Clean all-purpose vinyl cleaner and several NBT Marine Clean foil wipes.

NBT Marine vinyl products contain active nano agents that kill and protect

against bacteria responsible for mildew and fungus growth.

For more information, contact CMI Enterprises NBT Marine at 800 426 4826 ext. 313, www.cmi-nbt.com or info@cmi-nbt.com.

Marine solvent

Marine Formula is a patented solvent formulated to clean and remove adhesives and sealants used in marine applications. Marine Formula breaks the molecular bond of polyurethane adhesives and silicone rubber. The solvent will clean cured adhesives, caulks, sealants, black rub marks, liquid nails, most graffiti, overspray, polysulfide sealants, adhesive residue and adhesive films from duct and masking tape.

The product is safe to use on hard surfaces, such as glass, Formica, fiberglass, cement, brick, linoleum, wood floors and metal. It does not affect two-part paint systems widely used in the marine industry. The product is not for use on plastics, including Lexan®. Marine formula is available from Astrup in four-ounce and 12-ounce spray containers. Gallon containers of Marine Formula Industrial Strength are also available.

For more information, contact Astrup at +1 216 696 2820.

SUNBRELLA®
SUPREME.

Seeing isn't believing,
BUT TOUCHING IS.

One touch. That's all it takes to feel the difference. To create Sunbrella® Supreme, we combined high water resistance with enhanced aesthetics. And in the process we produced a gorgeous fabric that's redefining the marine fabric industry. And that's not just talk – all ten beautiful color combinations are backed by a five-year limited warranty.

To feel the difference of Sunbrella Supreme, go to www.sunbrella.com/supreme/ for a free sample.
